Legal basis for the processing of personal data

The processing of personal data is based on a legal obligation. Provisions on the obligation are laid down in the Transparency Register Act (430/2023).

Uses of personal data

Personal data is used to submit a report to the Transparency Register maintained by the National Audit Office.

What personal data are processed?

We do not collect data related to our normal use of services provided by authorities or to our participation in working groups established by authorities or statutory working groups or hearings organised by ministries.

With regard to lobbied members of parliament, ministers, state secretaries and special advisers appointed for the term of office of ministers, the secretary general and deputy secretary general of parliament, the permanent secretaries, under-secretaries of state and heads of department of ministries as well as rapporteurs appointed by ministries, we collect

- name
- position
- method of communication
- subject of communication
- any marketing and representation costs related to lobbying

With regard to parliamentary assistants and the personnel of parliamentary groups, information on the parliamentary group is reported. With regard to other civil servants at ministries, information on the department and unit is reported. With regard to other civil servants at the parliament, information on the committee, department and

unit or other similar part of the organisation is reported.

In addition, the name and position of the representative of the Finnish Central Association for Mental Health who participated in lobbying is collected.

Retention period of personal data and grounds for determining the retention period

Personal data shall be retained for as long as it is necessary for the purposes specified in this statement. Personal data will be deleted after
the Transparency Register notification is submitted.

Where was the personal data obtained from?

Primarily, we receive the information from the person or from public sources.

Data subjects' rights to receive information on the processing of their personal data, the right to withdraw consent for the processing of personal data and the right to lodge a complaint with a supervisory authority

Under the General Data Protection Regulation, the data subject has the right to

- access personal data
- rectify personal data
- delete personal data and be forgotten
- restrict the processing of personal data
- transfer personal data from one system to another
- oppose the processing of personal data
- not be subject to automated decision-making
- lodge a complaint about the processing of personal data with the supervisory authority, that is, the Data Protection Ombudsman

These rights are limited by the statutory obligation to process data and submit
a Transparency Register notification.

Transfer of data outside the EU or the European Economic Area or to third parties

Data is not transferred outside the EU or the European Economic Area or to third parties.

Information on automated profiling and decision-making based on it

The controller does not implement decision-making based on automatic profiling.

Information on organisational and technical measures to protect data processing

Personal data is processed in the cloud services of the Finnish Central Association for Mental Health. Personal data can be viewed through a password and two-factor authentication. Employees' computers use both hardware and software means to ensure information security. The terminals are password protected.

Microsoft 365 cloud services that can be accessed through, for example, Onedrive or Sharepoint are implemented by Microsoft Corporation. The Microsoft servers are located in Europe.
